

Tree Top Adventure

31st January 2019

On Thursday the 31st of January, the Year 11s went to Enchanted Adventure Gardens down in Arthur's Seat for a bonding exercise. This activity gave the new Year 11s and continuing Year 11 students the opportunity to get to know each other more. The Enchanted Gardens consisted of a high ropes course with 5 different levels of challenges, including some awesome obstacles like a giant swing and a rock climbing wall.

This experience really challenged our Year 11 group and some students even had to get over fears to participate. Each level was at a different height in the tree and some were harder than others. On two of the courses at the end you had a big zip line. The Year 11s were on the rope course for about four hours before they left.

After that the Year 11s went back on the bus, so they could go to the beach and had fish and chips for lunch. After lunch some of them went for a swim in the bay and others just walked across the beach. The Year 11s were there for about an hour before they got back onto the bus for the little road trip back to Ranges. On the bus trip back the Year 11s were listening to music, on their phone or having a chat with their mates about the amazing day they just had.
