TRAINING PATHWAYS

Some further training pathways including this unit:

- HLTAID013 Provide first aid in remote or isolated site
- HLTAID014 Provide advanced first aid

and a large variety of other courses including some Certificate III and IV level courses.

See training.gov.au for more information.

CREDIT

Participants who complete this course will be able to gain recognition for it in any relevant qualification in Australia.

One of the most important features of the Australian Quality Training Framework is the mutual recognition of training organisations and qualifications including Statements of Attainment. Any Registered Training Organisation must accept the credentials issued by another registered training organisation based in any State/Territory of Australia. The Qualifications and Statements of Attainment issued by Ranges TEC will be recognised Australia wide under these arrangements.

COMPLAINTS POLICY

Students who feel that they have been unfairly treated as part of their enrolment or during their

studies may access the Complaints and Appeals policy through the Ranges TEC website.

EQUITY AND ACCESS

Equity is a term used to cover issues relating to access to VET, participation in VET, and achievement of outcomes in VET. Equity issues range from providing a supportive learning environment to adjusting assessments to meet individual circumstances. Basically, equity refers to the ability to achieve results in training and to receive training in an inclusive environment with inclusive materials. An inclusive environment or set of materials is one that acknowledges and values the differences between people and cultures. It includes rather than excludes.

Ranges TEC is committed to ensuring that all prospective clients are able to participate and have the opportunity to build on their potential, make choices and receive responsive and appropriate products and services. Whilst the destination for all learners may be the same (i.e. demonstrating competence to the standard required), the journey may be different. Ranges TEC aims to ensure equity by being flexible and responsive and avoiding a 'one size fits all' solution to training and assessment.
